

# MEET ROSIE

Presented by the Craneway Pavilion

The Rosie the Riveter propaganda poster presents an image of an **empowered** working woman. This private tour of the Rosie the Riveter museum will give you a window into life on the **Home Front** of World War II. Meet a “real life Rosie,” and learn how entering the workforce **revolutionized** the role of women in American society. Stories of the hardworking men and women of this time will teach and inspire your team.

The Craneway Rosie Package offers customized activities and prices that fit the needs of your company.
